

Interface is a global leader in sustainable modular flooring solutions. Its portfolio includes modular carpet, LVT, and nora®, its premium rubber flooring line. Known for its innovation and environmental commitment, Interface delivers high-performance products ideal for healthcare, education, aviation, and office spaces. nora® stands out for its durability, easy maintenance, fire resistance, acoustic control, and slip resistance—making it the ideal choice for demanding environments. With a clear goal of becoming a carbon negative company and offering up to 15 years of warranty, Interface combines design, functionality, and sustainability in every project.
